

A close-up photograph of a mustard yellow upholstered chair. The fabric has a fine, woven texture. The lighting is warm and directional, coming from the left, which creates a strong highlight on the left side of the chair's backrest and seat, while the right side is in soft shadow. The background is a blurred, warm-toned surface.

Remix 3, a creation by Giulio Ridolfo, stands as an elegant textile renowned for its remarkable depth of colour. Its surface appears unicoloured from a distance, yet upon closer inspection, reveals intricate details and subtle contrasts. This effect is achieved through a tight, minimalistic weave, with a lively colour interplay derived from two distinct mélange yarns, each blending up to three hues. The result is a light, elegant wool upholstery, cele-brated for its exceptional tonality – a testament to its status as a strong basic and classic choice within the collection.

A casual woven plain textile made from a cotton-linen mix with a soft and pleasant feel, Hot Madison Reboot by JAB is highly versatile and lends itself to both playful contemporary settings and refined classic interiors. A plain weave combines a light and dark yarn made from cotton and linen, giving Hot Madison Reboot a depth of tonal quality with a soft, matt touch. Hot Madison Reboot by JAB exudes a subtle, rustic charm with a rich tonal and tactile quality.

Re-Wool, a rich upholstery textile designed by Margrethe Odgaard, holds a lower environmental impact profile with 45% recycled wool sourced from Kvadrat’s own yarn remnants. Created from scraps of Kvadrat’s UK yarn spinners, Re-Wool delivers an honest and poetic feel. Reflecting colourful stitching against a darker background, the textile showcases an appealing depth and a dynamic play of colour on furniture upholstery.

Fiord 2 is a versatile woollen upholstery textile originally curated by Norwegian designer Tone Barnung that embodies a subtle three-dimensional look. The construction cleverly combines *mélange* and unicoloured yarns from a recently updated colour palette made in collaboration with Louise Sigvardt, which creates pearl-like dots across the textile’s surface. Inspired by moonlit fjords, it offers an elegant, understated graphic touch, making it a refined upholstery choice.

A vibrant woollen upholstery textile envisioned by Giulio Ridolfo, Canvas 2 embodies a pronounced structure ideal for expansive surfaces. Inspired by Skagen, Denmark’s landscapes, it displays a soft weave and is crafted from a mélange yarn intertwining several tones in each colourway. Canvas 2 exhibits exceptional colour-depth and an intriguing visual allure; from afar, it exudes the serenity of a unicoloured textile, yet upon closer inspection, shimmering colour nuances with delicate contrasts and an elegant structure are detectable.

Barnum’s bouclé design displays the pleasing textural finish of a mixed-material blend. Featuring a high content of natural yarns such as cotton and wool, this casual yet elegant textile boasts a matt surface with a subtle sheen. While exuding sophistication, Barnum retains a less distinctive character compared to the boldness of Karakorum.

Ritz, a luxurious dual velvet, offers deep, rich colours ideal for various settings. Crafted from BCI cotton, a lower impact material, and repurposing recycled PET fibres, it’s an ideal choice for both home and public spaces. Its production prioritises water savings, soil health, and social considerations.

Kvadrat’s iconic Hallingdal, designed by Nanna Ditzel in 1965, remains a benchmark for woollen textiles. With enduring durability and flexibility, it has now been reimagined in Hallingdal 65. Combining wool and viscose, this classic textile duo draws on the defining qualities of its composition yarns: wool delivers robustness, while viscose enhances colour brilliance and depth. Both materials are dyed before spinning, accentuating the textile’s rich texture. Strongly emphasising colour and tactility, Hallingdal 65 presents a soft yet boldly woven plain weave, maintaining its timeless appeal.

Steelcut Quartet, an evolution of Steelcut and Steelcut Trio 3, presents a *mélange* look with softness, colour depth, and durability. Chosen from a colour palette designed by Giulio Ridolfo, this textile blends four coloured yarns to create both subtle and bold tones. Initially monotoned, its intricate structure and complementary nuances create a vibrant dynamic, revealing a tonal transition as the light or the viewer’s perspective changes. This hardwearing woollen upholstery reimagines Steelcut Trio 3, offering a softer *mélange* expression through yarn combinations and captivating interplay of structure and tones.

Steelcut Trio 3 is an enduring woollen upholstery textile with the same construction as the original Steelcut, designed by Frans Dijkmeijer, with colour direction by Giulio Ridolfo. The three-dimensional surface, resembling small pyramids or steel points, belies the simplicity and precision of its innovative weave. Crafted from three differently coloured yarns, Steelcut Trio 3 achieves a unique colour mix through yarn-dyeing, embodying durability and a distinctive expression.

Clay is a linen textile that blends natural beauty with casual elegance through a harmonious mix of yarn colours in warp and weft. Its uniquely structured surface enriches interior designs by adding an extra dimension, while a supportive back cloth provides added stability for high-performance when used for upholstery pieces. Inspired by art and interiors, its palette includes serene shades like cement, blue, and salvia, alongside earthy tones reminiscent of wood and clay, offering both finesse and natural beauty.

Designed by Vincent van Duysen and Anna Vilhelmine Ebbesen, Moss is a distinctive upholstery textile that blends twisted yarns and chenille, creating a textured surface with a dynamic appearance of movement. This unique mix not only imparts a soft and natural handle to the furniture it covers but also adds depth and character. Offering a selection from a colour palette inspired by van Duysen’s home, Moss exhibits a diverse and beautiful range of characteristics, combining elegant shine with matt surfaces and expertly crafted yarns. Composed from a high percentage of cotton content, it presents a bold blend that enhances any piece it encases.

Crafted from a blend of viscose bouclé yarn and recycled cotton, this upholstery showcases a dense, textured, and lively essence. A lower impact choice, this textile includes the use of recycled cotton, polyester and polyacrylic. The twisted bouclé yarn is tightly looped to create a nubbly surface with a shiny finish that contrasts beautifully with the matt recycled cotton found in the weft. Its dissolved aesthetic character, extended colour palette, and elegant yet crisp appearance make for an upholstery with a rich visual and tactile appeal.

Cifrado, a heavyweight chenille, offers the comforting look and feel of a well-worn material while embodying the durability of a heavy-duty upholstery textile. Its tumble-finished texture achieves a lived-in effect, combining innovative elements like chenille and twisted cotton with a double warp of twisted linen and viscose, alongside a significant proportion of recycled yarns. This characteristic blend not only delivers a soft, comfortable and inviting surface, but also has a lower environmental impact profile with a high content of recycled yarn.

Initially designed by Fanny Aronsen, Vidar 4 underwent a stunning re-colouration by Raf Simons, unveiling shades from moss green to mid-night blue and earthy tones. Its gentle satin surface contrasts with deep shadowy hues, offering multifaceted richness to its intense colours. Unlike other bouclé textiles, Vidar 4 is tightly woven, showcasing an inviting texture which is variously reminiscent of blackberries, orange peel or the comforting close-knit texture of a favourite sweater.

A matt mélange bouclé, Ecriture offers an elegant sheen and rich organic texture. Its diverse yarn mix creates a nuanced surface similar to grains of rice speckled with shiny warp yarn. Inspired by ceramic glazes, its colour palette spans from powdery rose pink to earthy tones like moss green and burnt umber. This textile’s nubby surface and blend of matt and shine deliver an elegant yet natural look, well-suited to a variety of furniture styles.

Designed by Kvadrat Febrik, Uniform Melange is a versatile knitted upholstery textile, with a smooth and comfortable appearance. Soft to the touch with a smooth overall finish, Uniform Melange is comprised of a knitted layer made out of predominantly wool which is then laminated onto a 2mm PU foam with a polyester backing for volume. The textile’s colourways are crafted from two differently coloured yarns, blending seamlessly for a soft, subtle mélange effect.

Sisu, a chequered upholstery by Nanna Ditzel, echoes her iconic Hallingdal textile. Curated by artist Danh Vo, Sisu’s bold yet subtle pattern, showcases thick woollen yarns and a graphic expression. Vo’s discovery of Sisu while exploring Ditzel’s work sparked interest in the link between textiles and furniture. It emphasises the interplay of colour, texture, and materials in product creation and interior design.

Karakorum, an exclusive wool bouclé, blends wool, viscose and cotton to create bold loops and curls, resulting in an upholstery with a rich rippled texture that closely resembles Astrakhan furs. This textile exudes a lively personality and expressive character, balancing an elegant shine with a natural, irregular look reminiscent of Barnum. Its unique texture and material composition make it a versatile choice for both high traffic areas and calmer interiors alike.

A unique knitted stretch velvet upholstery by Kvadrat Febrik, Gentle 2 offers an inviting presence with a soft pile and rich surface. Loops are knitted through a base layer and then shorn, resulting in a subtly striated appearance from irregular woollen yarns. Laminated onto a 2mm thick base foam, it achieves an opulent feel and voluminous expression, diverging from traditional velvets. Suitably versatile for public and private spaces, it elegantly conforms to curves and upholsters organic shapes efficiently.

Fuse is a densely woven wool and cotton blend that forms ribbed stripes, creating rows of stitch-like patterning in a close jacquard pattern. These fragmented stripes allow the two colours in the textile to blend, producing a subtle mid-colour effect across larger surfaces. The stripes in Fuse run parallel to the selvedge, contributing to its distinctive visual texture.

Tailor is a low-maintenance, full grain leather with a light surface finish which increases durability while maintaining a high resistance to fading – making it a great choice for busy contract areas like cafés and restaurants. Soft, flexible and comfortable, Tailor is a semi-aniline leather which is tanned in an Italian tannery and is chrome free. Due to the way this leather will age, Tailor is best suited to chair upholstery.

Cognac

Noble is a slightly softer leather, making it a good choice for areas with less traffic or for use in private homes. Made exclusively from European bull hides and awarded with a Blauer Engel certification, Noble has been specially developed to meet the high standards and specific criteria set by &Tradition. Tanned in an Italian tannery, Noble is an aniline leather, which means it may show the natural markings and characteristics of an authentic leather hide.

Elmosoft is a chrome free, soft and pliable semi-aniline leather with excellent durability and comfort. Made exclusively from Scandinavian cow hides, Elmosoft is tanned at a tannery based in Sweden, which further reduces the overall product emission levels. Showcasing the natural markings and characteristics of an authentic leather hide, this is a versatile material which lends itself well to a wide range of products. This leather will show minimal change as it ages, is easily wiped clean and meets UK Crib5 fire testing regulations.
